## TRACK & FIELD DAYS

Riverside's track & field days will be held the week of May 22<sup>nd</sup>. The 3<sup>rd</sup> & 4<sup>th</sup> grade students will have their track meet on Monday, May 22<sup>nd</sup>, starting at 12:45 pm. The 1<sup>st</sup> and 2<sup>nd</sup> grade track meet will be held on Wednesday, May 24<sup>th</sup> at 12:45. The 1<sup>st</sup> through 4<sup>th</sup> grade track meets will be held at Riverside. Our 5<sup>th</sup> grade students will be participating in the District Jay Seiler Track Meet on Friday, May 26<sup>th</sup>, from 9:30 to 1:00. The meet will be held at Stiehm Stadium (located at DC Everest Junior High). The rain date for the Jay Seiler meet is Tuesday, May 30.

Parents and friends are welcome to come and cheer on our students.

### GIANTS IN SCIENCE RESULTS

Riverside Elementary School hosted its 15<sup>th</sup> annual “Giants in Science” Science fair on March 16, 2017. Nearly 200 students participated in the event with a variety of unique projects from electrolytes to Thor’s hammer to a bunny that prefers organic carrots. We were joined by a group of guest chemists from Siemens Corporation and over 70 students from UW-Stevens Point to help judge the event. Following is a list of the trophy winners:

### Scientific Inquiry:

1<sup>st</sup> place- James D. - How clean is your toothbrush?

1<sup>st</sup> place- Alayna L. - Is Play-Doh an electrical conductor?

1<sup>st</sup> place- Grace J. - Does the power of a generator increase with the speed of rotation?

2<sup>nd</sup> place- Grace P. - How do forensic scientists use fingerprints to solve crimes?

2<sup>nd</sup> place- Drew R. - Can you turn a liquid into a solid without turning it back into a liquid again?

2<sup>nd</sup> place- Sara M. - Which mint is the coldest?

- 3<sup>rd</sup> place- Megan N. - How salty does water need to be to float an egg?  
 3<sup>rd</sup> place- Gabe G. - Is a dog's mouth cleaner than yours?  
 3<sup>rd</sup> place- Gwen D. - Do rabbits prefer organic or non-organic foods?  
 3<sup>rd</sup> place- Morgan S. - How does changing physical properties affect induction in a coin?

**Research a Scientist and Original Inventions:**

- 1<sup>st</sup> place - Even T. - Rodney Brooks  
 1<sup>st</sup> place - Tate M. - The Ultimate Fishing Bell

**People's Choice Awards (5<sup>th</sup> Grade):**

- 1<sup>st</sup> place- Gwen D. - Do rabbits prefer organic or non-organic foods?  
 2<sup>nd</sup> place- Alayna L. - Is Play-Doh an electrical conductor?  
 3<sup>rd</sup> place- Evan B. and Manning A. - Hammer Time- Does Thor's hammer work in real life?

**The results are also in for the 2016 Science Fair People's Choice Awards for the Kindergarten through 4<sup>th</sup> grade:**

 3<sup>rd</sup> place- Isabelle F. - Can suckers disappear?

**D.C. EVEREST NEW ANAPHYLAXIS POLICY**

It is the policy of the DC Everest School District to provide a safe environment for all students, including students with a known anaphylactic allergy. Anaphylaxis means that the immune system overacts to a particular protein found in that food. Each reaction is unique and symptoms range from mild to life threatening with each exposure. Anaphylactic reactions can occur if a person eats, touches, or inhales the protein of a substance they are allergic to. Ninety-nine percent of anaphylactic reactions are caused by the following allergens: peanuts, tree nuts, fish, shellfish, eggs, milk, wheat, soy. However, exposure to allergens such as latex, insect venom and medication may also trigger an anaphylactic reaction. Although the school district cannot guarantee an allergen-free campus, the following measures became effective on Monday, April 3, 2017, to minimize the risk of an exposure to an anaphylactic allergen:

- A reasonable effort will be made to not serve or purchase food products that contain nut ingredients for school operated programs.
- Nut containing products will not be served for school operated meals in grades K-5.

- All students, grades K-12, may pack a cold lunch containing nut products. Those meals should be eaten in the cafeteria.
- Individual daily snacks brought by students should not contain nut butters or pieces of nuts if they will be eaten outside of the cafeteria.
- Food items brought for treats should be commercially prepared with an intact ingredient label listing allergy information and should not contain peanuts or tree nuts. Products with labels indicating the food was prepared on shared equipment, or processed in the same plant will not be limited.
- The removal of nut containing ingredients and latex from the classroom environment is encouraged at all grade levels.

As a district we understand these new guidelines can impact how your child eats snacks and meals at school. We appreciate your cooperation and assistance with the new guidelines that continue to keep all students safe within the D.C. Everest Area School District. If you have any further questions regarding these upcoming changes, please feel free to connect with your building principal and/or your school nurse.
